

Managed Cyber Security Services

It is incredibly difficult and expensive to both find and then retain the right security expertise to keep your business secure.

The best way to overcome the struggle of staying secure is to outsource your cyber security to an IT Partner with a knowledgeable and experienced security team who are on hand to keep your business secure.

Our team can help you build your cyber security capabilities and then support and help maintain your compliance, all as an end-to-end managed service.

This will help keep your IT infrastructure, applications, business-critical data and users safe from both internal and external threats.

As part of our Managed Cyber Security Services, we will help you with:

- ⌘ Threat management.
- ⌘ Access management.
- ⌘ Preventative maintenance and updates.
- ⌘ Regular software patching.
- ⌘ Vulnerability management.
- ⌘ Security incident response.
- ⌘ User education and training.
- ⌘ Proactive 24x7x365 security monitoring.

Managed Cyber Security Benefits

-  **You can enjoy secure, resilient business operations.**
With managed cyber security services based on market leading technology, you get to enjoy enhanced protection from both internal and external threats. That helps keep your business safe and secure in an ever-changing threat environment.
-  **We are completely vendor-neutral, so will develop a bespoke security solution that will meet your requirements.**
We will introduce the best managed firewalls, web and email security and application firewalls, advanced threat detection services, endpoint security services etc to ensure the protection of your business to cyber security threats.
-  **We are completely vendor-neutral, so will develop a bespoke security solution that will meet your requirements.**
We will introduce the best managed firewalls, web and email security and application firewalls, advanced threat detection services, endpoint security services etc to ensure the protection of your business to cyber security threats.
-  **You have a reduced risk of security events.**
A security event could be catastrophic for your business. By engaging with a managed cyber security partner, you can be sure that you are doing a lot more than most to protect yourself. We will help consolidate your security infrastructure, reduce the complexity of your setup and improve the overall effectiveness of your protection in order to help ensure that you are not a victim.
-  **Service from a team of experienced security personnel.**
Our security team work tirelessly to keep abreast of new security developments and best practice. They are also exposed to a wide range of different business types and scenarios, so are well placed to ensure that we can manage your security risks effectively. This provides exceptional value for money as you don't have to invest in a costly security team yourself.
